

STYRO

Sistema decorativo in polistirolo /
Polystyrene decorative system

GYPSUM.

STYRO

TIPOLOGIA DI PRODOTTO

Elementi decorativi per interni realizzati in materiale polimerico. In base alla tipologia di prodotto, gli elementi possono essere realizzati in polistirolo estruso, polistirolo espanso, polimero strutturato HD antiurto o poliuretano. Ogni categoria di prodotto è caratterizzata da un alto standard qualitativo della materia prima utilizzata e da una finitura estetica di pregio.

PRODUCT TYPE

Decorative elements for interiors made of polymeric material. According to product type, the elements can be made in extruded polystyrene, polystyrene foam, impact-resistant HD structured polymer or polyurethane. Each product category is characterized by the high quality of the raw materials and by a high-quality aesthetic finish.

STYRO

COLLEZIONE

In questo catalogo sono raccolti i nostri elementi decorativi standard, studiati per realizzare opere decorative in stile classico o contemporaneo, sia su nuovi edifici, sia su edifici in fase di ristrutturazione. Con i nostri prodotti potrete realizzare opere di qualità, durature e di grande effetto con la massima semplicità.

COLLECTION

This catalog contains our standard decorative elements, designed to create decorative works in classic or contemporary style, both on new buildings and on buildings under renovation. With our products you can create quality, long-lasting and impressive works with the utmost simplicity.
