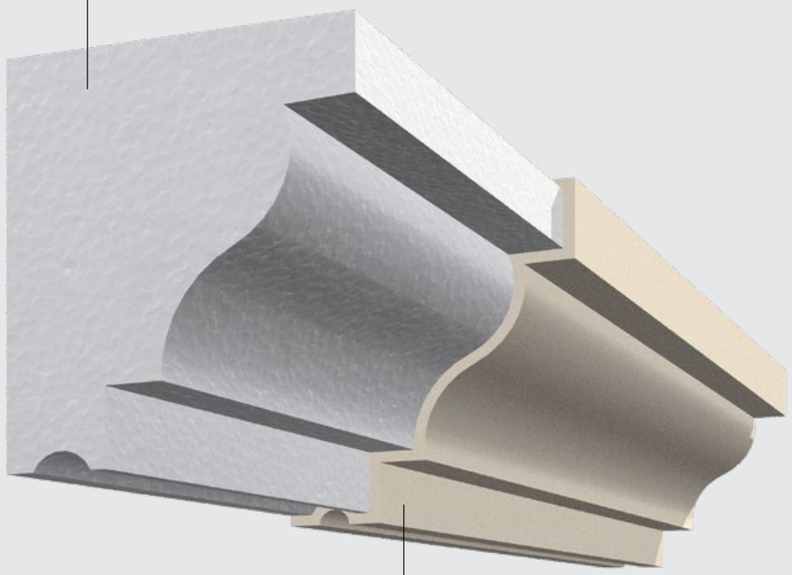
elemento in EPS sagomato /
shaped EPS element



rivestimento: nobilita polimerica minerale Pluma Stone /
coating: mineral polymeric hardening material Pluma Stone

spessore nominale /
nominal thickness
3,5 mm

PLUMA

TIPOLOGIA DI PRODOTTO

Elementi decorativi costituiti da un'anima in EPS ad alta densità che viene prima sagomata mediante sistemi CAD/CAM, e poi rivestita con uno strato nobile di speciale mescola a base di polimeri e inerti selezionati.
Questo strato di copertura rende il prodotto finale duro, elastico, ben definito e idoneo ad essere utilizzato in esterni.

PRODUCT TYPE

Decorative elements consisting of a high density EPS core which is first shaped by CAD/CAM systems, and then coated with a special layer of mixed polymers and selected aggregates.
This covering layer makes the final product hard, elastic, well defined and suitable for outdoor use.

PLUMA | arredi e scenografie su misura / custom-made furnishings and scenographies

Prodotto e applicazioni /
Product and applications

Realizziamo elementi su misura di qualsiasi forma e dimensione in polistirolo nobilitato valutando, in base al progetto, il tipo di nobilita e il tipo di finitura superficiale più adatte allo scopo. Siamo in grado di realizzare scenografie, elementi per stand fieristici, soluzioni di arredo per SPA ed oggetti, come sedute e vasche, adatti all'ambito outdoor. Si prega di contattare l'azienda per ulteriori dettagli e per lo sviluppo del progetto /
We produce custom-made elements of any shape and size in laminated polystyrene evaluating, according to the project, the type of finishing and the type of surface finish that is most suitable for the purpose. We are able to create scenographies, elements for exhibition stands, furnishing solutions for SPAs and objects, such as seats and tubs, suitable for the outdoor environment. Please contact the company for further details and for the development of the project
